Wy-Jon County USBC High Score Award Program

Your local Wy-Jon County USBC association has decided to continue the High Score Award Program for bowlers who bowl 300 game and 800 series and 11 strikes in a row. We believe that some recognition needs to be given to those accomplishments since USBC has, at this time, discontinued recognition for anyone who previously attained those accomplishments. As always, a first timer will still receive proper recognition from USBC.

THE PROGRAM WILL CONTINUE WITH THE START OF THE FALL LEAGUES FOR THE 2024-2025 BOWLING SEASON.

Here is how the program works:

- For bowling first 300 game or 800 series, the bowler would receive a white bowling pin with a black marble base and engraved name plate detailing the bowler's name, date bowled and score and center in which the high score was bowled. A bowler is eligible to receive one bowling pin for each award category.
- For a second, 300 game or 800 series bowled, the bowler would receive an engraved name plate and a large wooden stand where the original pin can be mounted. This is designed to hold multiple engraved name plates.
- For the third, and any succeeding, 300 or 800 awards, an engraved name plate with bowler's name, date bowled and bowling center will be awarded to the bowler to add to the wooden stand.
- For the 11 in a row award, the bowler would receive a medium wood stand and engraved name plate detailing the bowler's name, date bowled and score and center the high score was bowled. Like the large stand it is designed to accommodate multiple engraved name plates. Second and succeeding 11 in a row scores bowled would receive an engraved name plate with bowler's name, date bowled, score and bowling center, which the bowler can add to their original award stand.

We have requested each Wy-Jon bowling center to participate with the association on sharing the cost of this program and, as of last season, each center has participated in the program.

These prices are very cost conscious, we are getting a good deal from the vendor. Costs are always subject to change, but the centers will be notified if there are significant cost increases for any of the awards. We do not anticipate that in the foreseeable future.

We ask each participating center to notify the association the day the score is bowled or the following day at the latest, so we can insure that the bowler receives his/her award in a timely basis (the following week). At the start of the season, it is very important that all secretaries collect membership fees the first night of bowling, so a bowler's membership can be verified

by the association should a bowler bowl an honor score the first few weeks of the league. If the association has not received the sanction documented from the league, a call will be initiated to the league secretary to verify membership. If a league secretary provides erroneous information concerning membership, the secretary may be held responsible for the cost of the award.

In addition, we would still need the standard High Score Award paperwork on ALL honor scores bowled for submission into the USBC system. Each center participating in the High Score Award Program will be billed on a quarterly basis for awards presented in their center. Payment would be expected within 15 days of being billed. Any center not paying will be dropped from the program and their bowlers will not be eligible for any of the awards in this program earned at that center.

Program Costs
